## PERSONAL TRAINER

### ABOUT ME

I grew up in Kalispell, MT and joined the military right out of high school. I spent 8 years in the US Navy where I worked in military law and deployment support. I developed a love for fitness and health in the military during the semi-annual personnel readiness tests we were required to take. I loved seeing how far I could push my body and mental endurance to achieve something I previously thought unattainable. This enthusiasm for fitness quickly turned to a desire for something more when I was selected to lead group military fitness sessions and I saw first hand the positive impact physical fitness has on both the mind and body. I eventually got my yoga teacher training and personal training certifications.

I teach and have experience in Olympic-style lifting (I have competed in CrossFit competitions); high intensity bootcamps; low-impact barre and resistance band workouts; Vinyasa Flow and recovery style yoga; low-impact strength training; core conditioning; and running. I am an avid runner and my most recent accomplishment was finishing the New York City marathon.

I have a passion for connecting with people and helping them to set and achieve their individual fitness goals. I bring an upbeat, high-energy, positive, and friendly attitude into each class I instruct and every one-on-one personal training session that I lead. I am committed to creating an environment where you will feel supported in your fitness journey, and to making it fun along the way.
